

Code Enforcement Officer Training Program
List of Publications and Videos
June 2001

The Program has developed and maintains the following materials to support the State's code training and certification efforts: program information guide, one published book, 13 training manuals, and 11 workshop videos. Program materials are available at no charge to all municipally employed code enforcement officers. The materials are provided at cost, plus a small handling charge to other municipal officials, state agencies, and the general public. The cost for printed publications is \$10.00 (tax included). The program information guide is free of charge. Video lending is available free of charge to those certified or seeking certification. Those topics for which we have a workshop video available are check marked. Video loans are for a two-week period. Videos must be returned promptly. You will be billed a \$35.00 late return charge per tape if not returned on time. Publications include: (✓ = video available for this subject area)
